Summary

Results-driven **Software Developer** with experience in building **scalable applications**, backend systems, and automation tools using **Java, Python, JavaScript, and modern web technologies**. Skilled in **full-stack development**, problem-solving, and designing reliable, production-ready solutions with a focus on clean architecture and performance optimization. Holder of multiple **AWS Certifications**, including **CloudOps Engineer Associate** and **Data Engineer Associate**, with practical knowledge of **cloud infrastructure, deployment automation, monitoring, security, and data engineering workflows**. Passionate about continuous learning, open-source collaboration, and leveraging cloud technologies to build efficient and scalable systems.

Education

KIET Group of Institutions, Ghaziabad, Uttar Pradesh

2024 – 2028

Bachelor of Technology (B.Tech), Information Technology

Current CGPA: 9.13

City Montessori School, Lucknow, Uttar Pradesh

2023

Class XII (ISC Board)

Percentage: 98.25%

City Montessori School, Lucknow, Uttar Pradesh

2021

Class X (ICSE Board)

Percentage: 98.6%

Relevant Coursework

- Data Structures
- Database Management
- Computer Networks
- Algorithms Analysis
- Web Technology
- Operating Systems

Intra-Operational Experience

FOSSCU-K

2024 – Present

Member

Ghaziabad, Uttar Pradesh, India

- Organized and contributed to 10+ technical seminars and workshops on modern tech stacks, improving peer learning and engagement for 100+ participants.
- Worked with the free and open-source community, enhancing skills in version control, collaboration, and code quality practices.
- Strengthened technical and problem-solving skills through continuous learning and practical implementation.
- Engaged in networking and knowledge sharing, building connections and contributing to a collaborative tech environment.

Projects

Barze - Notes Companion | *React, Electron, JavaScript, Vite, Tailwind*

2025

- Developed a cross-platform desktop note-taking app using Electron with local file-based storage.
- Implemented Markdown support and handling for 5+ different file types (MD, TXT, JSON, etc.) for flexible note management.
- Designed “Bar Mode” (always-on-top quick capture UI) to improve accessibility and multitasking.
- Built a responsive interface with React + Tailwind and optimized builds using Vite.

Kachina – Discord Utility & Automation Bot | *Python, Flask, Render, Discord Python library, AsyncIO*

2025

- Created a feature-rich Discord bot supporting 10+ commands, embeds, and slash commands for enhanced server interaction.
- Implemented AsyncIO-based scheduling system handling 100+ automated reminders and timed tasks.
- Built real-time presence tracking and event-driven notifications for user activity monitoring.
- Deployed with a Flask-based keep-alive server and environment-based configuration, ensuring continuous up-time and secure token management.

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, SQL

Developer Tools: Docker, Kubernetes, Postman, D-Beaver, Git, GitHub

Technologies/Frameworks: React, Next, Spring Boot, AWS Cloud

Certifications

AWS Certified Cloud Practitioner

Issued: November 2025

Amazon Web Services (AWS)

Expires: May 2029

- Validated foundational knowledge of AWS cloud concepts, core services, security, pricing, and support.

AWS Certified AI Practitioner

Issued: December 2025

Amazon Web Services (AWS)

Expires: December 2028

- Validated foundational understanding of AI and machine learning concepts, including practical awareness of AWS AI services.

AWS Certified CloudOps Engineer - Associate

Issued: May 2026

Amazon Web Services (AWS)

Expires: May 2029

- Validated expertise in monitoring, logging, deployment automation, reliability, networking, security, and operational best practices on AWS cloud infrastructure.
- Demonstrated proficiency in implementing scalable and highly available cloud operations solutions using AWS services.

AWS Certified Data Engineer - Associate

Issued: May 2026

Amazon Web Services (AWS)

Expires: May 2029

- Validated expertise in data ingestion, transformation, data store management, operations, and governance on AWS.
- Demonstrated proficiency in designing and managing scalable, secure, and efficient data engineering workflows using AWS services.
